Inspiring the Next Young Environmental Leader - Arron Wood & Richard Wood

"Arron and Richard Wood's successful method of engaging youth on the big environmental challenges facing our planet is truly inspiring. They bring renewed hope for encouraging activism by future generations.

This book is about the evolution of Kids Teaching Kids and its relevance as an effective formula for educating young people and motivating them to take action in their own lives both in and out of the classroom.

Arron and Richard developed this highly effective model for Australian schools. The UN Works Programme is collaborating with them to integrate this approach into educational outreach to students around the world."

Carmel Mulvany - Chief, UN Works Programme
